Parameters

Name	Unit
Performance (HP)	3 hp
Weight	60 kg
Max tree diameter	3,5 cm
Blade	2 pcs
Opposite blade	2 pcs
Mincing blade	6 pcs
Dimensions	1300 x 580 x 1150 mm
Tunnel entrance	305 x 305 cm
Drivegear	electromotor

Description

Tritone Sprint is an electric bio-shredder entirely MADE IN ITALY, built following the logic of large size bio-shredders, thus obtaining the maximum result in terms of cutting, speed and reliability. It mounts a 3hp motor, a cutting mass with two main blades and 6 shredder knives inside. The main feature that differentiates it in its category are the two interchangeable counter blades, like the larger professional bio-shredders. Blade and counter-blade make the cutting easier and decrease the motor effort, increasing the effectiveness of the machine and the speed of the work. The Tritone Sprint complies with CE regulations on safety at work. It needs 230 volt to be operated.
