Minimum HP	80-90 hp

Description

The Inter-Row Rotary Cultivator is a high-performance agricultural machine that has been specifically designed for efficient field work. The device's wide working width of 515 cm enables quick and thorough soil cultivation, while the foldable design ensures easy transport and storage. The uniform soil preparation provided by the rotary cultivator helps to improve the sowing conditions and increases the crop yield.

Optionals:

- Furrow Plough Unit
- Signalisation Sytem
