Description

The Inter-Row Rotary Cultivator is an efficient agricultural tool designed for soil preparation and cultivation. The cultivator with a working width of 215 cm is ideal for quickly and evenly processing larger areas. The device, equipped with rotating blades, efficiently atomizes and aerates the soil, thereby promoting plant root development and water and nutrient uptake. Thanks to its robust construction and wide working width, it saves time and energy while ensuring a high level of performance during agricultural work. 3 Units Interrow Rotary Cultivator (Toscano) with basic width of 48 cm.

Optionals:

- Fertilizer Unit Wide Unit (3 Units)
- Furrow Plough Unit
