Parameters

Name	Value
Working width	3000 mm
Width	3100 mm
Number of hoes	24 pcs
Weight	1300 kg
Working depth	28 mm
Minimum HP	90 hp

Description

Power Harrow is a tillage machine with vertical blades that turns right and left continuously.

It prepares seedbed; eliminates weed and plant residue; mixes fertilizer; creates water channels in deeper layers of the soil. It also minimizes stratification.

Power harrow does not turnover the soil, keeps the moisture inside.
Since the blades operates right and left, it does not hold any soil or mud.
Vertical operation increases the water intake of the soil.
It allows the plant roots to develop faster by preventing stratification deep in the soil.
Specially adjusted blade alignment increases efficiency while reducing vibration.
Seeding machine connection tool makes it possible for preparing the seedbed and sowing at the same time.
STANDARD EQUIPMENT
Universal 3-point CAT II Linkage
1 3/8'' Z6 Spline PTO Protective Shaft
Double Outlet PTO Gearbox with 540-750-1000 rpm provides
2500-3000: min:195 max:361
3500-4000:min:236 max:437 Rotor Speed
280mm length 12 mm thick High Quality Blades.
Packer Roller with Sludge Separator
Rotor Prevention System (Developed by Toscano; prevents hose, rope, wire etc. tangling)
Anti-Jamming System (Prevents stone jamming between rotors)
Rear Roller Pin Adjustment
Adjustable Levelling Profile
Mobile & Adjustable side covers
Removable CE Safety Guards
