Parameters

Name	Value
Working width	2840 mm
Width	3150 mm
Number of hoes	72 pcs
Weight	1750 kg
Working depth	250 mm
Minimum HP	140 hp

Description

Rotary tiller is a tillage machine that mixes the soil from bottom to the surface with the help of horizontally rotating hoes. Stoneburier rotary tiller is used for preparing seed beds on rocky/stony fields to burry the stones below 20 cm of field surface. Roller ensures flatter soil surface while working.

Tillage machine that crumbles the soil so the seeds will find an easy way to grow.
Mixes the plant wastes into soil homogeneously.
Since the rotor turns backward, it crumbles the soil in the maximum level.
Cleans the stones from field and prepares the soil for the sensitive seeds.
