Working width	2300 mm
Width	2650 mm
Number of Y-Blade	48 pcs
Weight	750 kg
RPM	750 rpm
Minimum HP	100 hp

Description

Flail shredder; also known as Flail Mower or Chopper; is used to shred plant wastes after harvest. All the plant wastes and residues got broken in very little pieces. With the process, residues can dissolve in the soil easily. The process enhances soil microorganisms, so; soil quality. It can be also used as weed mower if needed.

Plant wastes will be mixed with soil, therefore soil recovers its organic material.

It also shreds the wet plant wastes and stems.

It can be used for living plant stem and branch mowing too.

Wider working width saves time and fuel in large fields.
