Working depth	120 mm
Number of tines (cultivator)	8 pcs
Tractor Motor Power	60 KW
Tractor Power	82 HP
Diameter (Rollers)	370/350 mm
Distance between teeth	250 mm

Description

The Bomet U985/3 is a Canis-type heavy soil tillage cultivator designed for pre-sowing soil preparation in a variety of soil conditions. Its main working elements are two rows of spring-loaded tines, equipped with tine-shaped tines to effectively cut and loosen the soil.

Main specifications

Working width: 2 m
Working depth: 2-12 cm
Number of tines: 8 tines
Spacing between tines: 25 cm
Front roller diameter: 370 mm

The machine is equipped with lateral baffles to prevent soil from spreading outside the working width. Precise adjustment of the working depth is ensured by a parallel mechanism.

Precise adjustment of the working depth is ensured by a parallel mechanism.

This cultivator is an effective tool for soil preparation, ensuring optimum conditions for sowing.
