Parameters

Name	Value
Weight	0,43 kg

Description

- Eliminates squeaks
- Displaces moisture
- Cleans and protects
- Loosens rusted parts
- Loosens seized structures
- Protects against corrosion

WD-40 penetrates layers of rust, loosens stuck structures and rust-affected vehicle and machine parts. WD-40 also removes stubborn dirt, displaces moisture from electronic contact surfaces and prevents stray currents. WD-40 forms a thin protective layer that prevents moisture and rust from forming on metal parts without attacking the surfaces of the parts.

- 360° valve for use from any position
- Two-way spray system: for large area and spot application
- Spray lance protected against loss

Chemical property:

- Silicone, resin and Teflon free
- Electrically non-conductive

Temperature range (°C): -20 °C to +90 °C
