Parameters

Name	Value
Working width	1200 mm
V-Belts	3 pcs
Width	1380 mm
Length	860 mm
Height	640 mm
Weight	414 kg
Oil flow	70-100 l/min
Oil pressure	200-220 bar
Hammer PCs	20 pcs

Description

An extremely robust and robust machine, an excellent choice for heavy-duty stem crushing and forestry work. The machine has working widths of 1000 and 1200 mm. It is equipped with 360° rotating forestry hammers.

The special design of the hammer holder lugs allows professional chipping with extreme durability.

It is equipped with a hydraulically driven, double-piston hydraulic motor and V-belt transmission.

For safe and reliable operation, 220 bar oil pressure and 70-100 l/min oil flow are required.

It is equipped with 2 different types of mechanical couplings, making it a universal machine, making it much easier for the average user to connect to the excavator.

- - Reversible 2-edge hammers
- - Rear tracking roller
- - Adjustable height skid pads
- - Front safety chains to protect against spillage
- - Pressure relief valve
- - Fitted with SKF bearing bracket
- - Hammer axle speed: 2000
- -2200 rpm
- - Number of universal connections: 3 (all included in the standard price)
- - Lateral adjustment
- - High wall thickness and extra reinforcements, robust construction
- - Cutting diameter: 8-12 cm
