The Yanmar YM359 compact tractor combines a 3.3L Stage V-compliant engine and mechanical (fully synchronized) transmission to deliver unprecedented power and performance. Operating in the 60 horsepower range, the YM359-series complements the existing YT3 tractor series in the company’s range and is designed to provide users with many of the features and benefits associated with the YT3-series but with a mechanical transmission. Furthermore, the YM359 compact tractor offers all the safety and comfort features that customers expect and reliability that makes this tractor ideally suited to a range of applications including landscaping, farming and maintenance purposes.
